

See it. Report it.

A sheen, milky water, mud in the street, or someone dumping into a drain is a stormwater complaint.

You do not have to know the chemical. The place and what you saw are enough. Card D is the post. This sheet is the one to leave at the counter.

Do This	Not This
Note the street and what you saw	Hose a spill toward the curb
Call or file it in OpenGov	Dump oil or antifreeze
Keep paint, salt, and chemicals out of the rain	Wait to see if it goes away
Wash a car on the grass, or at a commercial wash	Pour wash water in the gutter

When You Call, Say This

The street or the place. What you saw: a sheen, mud, trash, pet waste, or a blocked drain. When you saw it.
