**\*\*NOTE: This is a State road construction project. Please contact the Kentucky Transportation Cabinet with questions.**

This Kentucky Transportation Cabinet project will be a partially controlled access highway. There will be two lanes built, with a 10 foot multi-use trail along the southern side of the road. The State has purchased enough right of way to eventually build four lanes, if needed in the future.

**Berea Bypass, Phase 2 Alignment  
City of Berea, KY**
